We are looking for a **Front-End developer** for the Belgrade office.

We are putting together a new development team in Belgrade for a client in Canada. The assignment is long-term, expected to last for years. The project itself consists of development and maintenance of an Enterprise level, Cloud based Domain / DNS Management platform.

What we are offering:

- Working in a friendly environment of young people
- Flexible working hours and occasional remote work
- Working exclusively dedicated on one project, no rotation between multiple projects
- Opportunity to show yourself and apply your skills
- Competitive salary

Requirements:

- Around 2 years of professional experience as a Front-End developer
- Experience with front-end technologies: HTML, CSS
- Experience with vanilla JS
- Responsibility for your work - developer's scope of responsibility is not only the current task, but the whole project
- Experience with teamwork and collaboration
- Proficient with English language (read, write and speak) is a must

Bonus skills:

- Experience with some of the modern JS frameworks, like React, Vue.js or Angular
- Experience with SASS/LESS, gulp, webpack
- Experience with a code versioning systems like Git

- Experience with a Photoshop or Sketch
- Experience with JIRA

Some of the other technologies our stack includes are PHP, Symfony 4 framework, Doctrine ORM, MongoDB, etc.

If you find yourself suitable for this position please send us your CV to office@quadroconsulting.com
